All good questions and comments. I would like to think about and discuss with Amanda before responding with one response from both of us. Is that ok with you, Kris?

Thanks.  
Audrey

# Ex. 5 Deliberative Process (DP)

What should our next step be with the protocols? Are there assessment needs for ROB that we can act on right now?

And I hope cheaper....I implemented a version of this at NTP and I think it ended up being fairly cheap. But the workflow we are discussing below seems much better

Yes on piloting – being one of the reviewers! Exactly. Perhaps one of the reviewers and then also the final, or at least reviewing the final text on the 1-2 studies used during the piloting of the protocol

Yes. Each study would have 1 ICF ROB reviewer and 1 in-house person with the in-house person being the final reviewer. I don't know how the authorship page of the assessment would be affected, but we can figure out how to cross that bridge later.

It's on agenda for MC tomorrow - are you thinking we pair them with ICF reviewers to spend the Epi WA money and use this as a chance to get the ICF epidemiologist used to our workflows
